COMMITTED TO  
SUSTAINABILITY

## ENVIRONMENTAL POLICY of ARMA SHIP SUPPLY INC.

Our commitment is continually improved to develop our environmental performance, based on our activities and community needs.

Arma bases its activities on the life cycle, circular economy, improvement and continuous improvement principle.

According to our environmental policy, our activities are as follows;

- We operate our offices and warehouses in compliance with laws, regulations and standards.
- By apply the best possible technologies and operating procedures, we will minimize exposure of our employees to environmental, health and safety risks.
- We increase the quality of alternative materials that we use on supply processes in order to minimize non-renewable natural resources.
- We identify risks to reduce negative conditions for environmental emergencies.
- We constantly improve our environmental management procedures and measure our performance.

In order to improve our environmental performance continuously and to take an active role in environmental protection of our employees, we ensure that they raise awareness with necessary trainings.

About our sub-suppliers, we require them also to comply our company's environmental policies and procedures.
